RE: Site Inspection of Enercor Experimental Pit,  
DOE/047/015, Uintah County, Utah

011

Tom Munson and I have tentatively scheduled a field trip to the Enercor site sometime during the week of July 29. The final date will be arrived at when Tom returns.

Along with the Enercor site, three other sites in the area will be inspected at the same time. They are: Uintah County Tar Sands, Wasatch Tar Sands, and White River Shale Oil Corporation. Two of these sites, Uintah County Tar Sands and Wasatch Tar Sands, were to be visited last October, but due to weather conditions, we were unable to do the inspection.
